CAREER OBJECTIVE:

I'm a Software Engineering student and Junior MERN Stack Developer with hands-on experience in **React**, **Next.js**, **Node.js**, **Express**, and **MongoDB**. Skilled in building responsive, scalable web applications using modern **JavaScript** frameworks and **REST APIs**. Strong problem-solving ability, quick learner, and committed to writing clean, maintainable code in real-world development environments.

TECHNICAL SKILLS

- **Expertise:** JavaScript, ES6, React.js, Next.js, Firebase, Tailwind, Html5, Css5
- **Backend:** Node.js, Express.js, JWT
- **Database:** MongoDB, SQL
- **Familiar:** C, C++, Python, Go (**200+** problem solved in [Codeforces](#).)
- **Tools:** Git, GitHub, VS Code, Figma, Netlify, Vercel, Postman, npm
- **Soft skills:** Team Collaboration, Time Management, Communication, Fast & Adaptive Learner

PROJECTS

CleanBD: (November 2025 - November 2025)

[Client](#) | [Server](#) | [Live Link](#)

- Developed a full-stack platform for viewing and posting public complaints (garbage issues, illegal construction, road damage, broken public property).
- Implemented secure user authentication with Firebase Auth, enabling users to submit, track, and manage their complaints.
- Added features for optional cleanup contributions to encourage community participation.
- Developed a responsive frontend with reusable components and reliable image/fallback logic for a smooth user experience.
- Tech Stack: React, Node.js, Express.js, MongoDB, Tailwind CSS, Firebase Authentication.

LearnSkill: (November 2025 - November 2025)

[Client](#) | [Server](#) | [Live Link](#)

- Developed a full-stack course management application using **Next.js** with secure authentication by NextAuth.js.
- Built public and protected pages enabling users to browse courses, view detailed information, enroll and access restricted features after logging in.
- Developed interactive UI with reusable components, and consistent design across landing page, course list, and course details pages.
- Tech Stack: Next.js (App Router), React, Nodejs, Tailwind CSS, NextAuth.js, JavaScript, react-hot-toast
